

Coding Evaluations Guidelines

Please follow the following guidelines for the evaluations:

General Instructions:

1. Please upload your submissions link on time. Any delayed submissions will not be considered and the students will be assigned 0.
2. Since we are running automated evaluations, you should know these two things
 - a. Unzipping file
 - b. Deploying link (Netlify), for deploying your link you should create account in netlify, don't deploy with free account
 - c. If you are facing issues with the above two points, reach out to your IA immediately.
3. Record your entire evaluation in zoom with video and screen sharing on.
4. Evaluation timings: Enter time
5. You can't refer to previous coding assignments.
6. Video instructions also will be given along with the question, make sure to follow that.
7. Students who don't follow the rules such as submitting proper netlify links, using same Ids / class names mentioned in question template, their evaluations will not be graded by evaluation bot (automated evaluations) and this can lead to 1 score even if submission is correct.
8. Don't indulge in any plagiarism activities, we have enough tools to check for plagiarism.
9. Don't use any other social media platforms during evaluations like whatsapp, telegram etc.
10. You will be able to see your coding evaluations marks on the course platform by Saturday end of the day. In case you are not satisfied with the scores please raise the ticket within 72 hours after receiving the marks. Any requests later will not be accepted. Please note that any requests made on slack will not be accepted.
11. Please ensure that you are uploading the correct netlify link. Grading is automated, any gaps especially in such cases will automatically be awarded 1 and we will not be re - evaluating these submissions later.

Specifically for unit 1:

- a. Instruction For **Coding Evaluation 1, Coding Evaluation 2 and Unit Coding Evaluation**
 - The evaluation will be on OJ
 - No other Online or Offline IDE is allowed during Evaluation eg : **VS Code, Replit, etc**
 - Using any kind of resources on internet or MDN docs is not allowed
 - Make sure to upload the recording link after the contest.
 - Detailed Demo will be given to you related to the respective upcoming evaluation on Friday or Saturday.
- b. Instruction For **Coding Evaluation 3**
 - The evaluation consists of two parts
 - One on OJ
 - Problems on LMS : Solved on Replit or any online IDE or VS Code is allowed
 - For LMS problems, you need to upload the file for each question.
 - Detail Demo will be given to you regarding the evaluation on Friday or Saturday.
 - Using any kind of resources on internet or MDN docs is not allowed
 - Make sure to upload the recording link after the contest.

#Note :

1. A practice Mock Evaluation will be conducted on Saturday and Sunday.
2. you can attempt any of the two or both.
3. The Mock Evaluation is designed to give you an actual Evaluation like feeling.
4. It is not mandatory but recommended .

Specifically for unit 2:

- a. Use VS code for your evaluation.
- b. You can refer to MDN documentation, cheatsheet and class notes but don't copy paste the entire code from class notes or MDN or any other sources, just refer to them.
